André Grow, Daniel Ciganda, Robert Stelter and Emilio Zagheni

[A2.07] Developing High-Quality Linguistic Corpora for Analyzing Highly Subjective Phenomena
Valerio Basile and Komal Florio

[A2.08] Structural topic models for enriching quantitative text analysis
Cornelius Puschmann and Carsten Schwemmer

[A2.09] Analysis of Multiplex Social Networks (hands-on)
Matteo Magnani and Obaida Hanteer

[A2.10] Experimental Social Networks: Designing and Conducting Large-Scale Experiments on Networks using Crowdsourcing
Mohsen Mosleh

[A2.11] Computational Social Science of Science
Dashun Wang and Lu Liu

19:00 – 23:00	[**CREA**] Tutorial drinks

After the Tutorials, we would like to invite you for an informal get-together at the Muziekzaal of the CREA Café (Nieuwe Achtergracht 170), which is right next to the University building. Snacks and drinks will be served and if the weather allows, we can enjoy the sun next to the Canal in front of CREA. Vouchers for drinks will be handed to you during the registration on Wednesday. Please join us for what promises to be a great start of the regular conference program.

The **Main Hall** is located at the main entrance (see map on the Program Overview leaflet).
